

EYE CLINIC
KERATOCONUS CENTER
BEAUTYLOUNGE

Since its inception in 1995, the Paulig Eye Clinic in Berlin has been a center for innovation and research in diagnostics, eye treatment and especially in vision correction surgery and glaucoma treatment.

Director Dr. Sylvia Paulig: "Comfort for our patients means - expecting the highest degree of safety in eye surgery by using minimal invasive methods and high volume experience." (95,000 surgeries performed by Dr. Paulig)

"Your eyes are just as unique as your fingerprints and the right correction procedure for them should be just as unique. Because we are leading researchers in the field (scientific presentations world wide), Paulig Eye Clinic is able to offer you vision correction for any refractive error."
